FOR YOU

# Residential, commercial and industrial systems for the automation and control of gates, garage doors and barriers

**Nice Australia provide functional products with an exciting design that allows people to enter and leave their home and business in complete freedom, with the utmost comfort and security, and therefore enjoy their living and work spaces to the full.**

Nice offers the simplest integration, the widest range, the most advanced electronics, the finest design and the most complete and attractive automation system.

Nice Australia manufacture GDS products - industrial quality automatic gate drive systems made in Australia for Australian conditions. Developed and manufactured in Australia, the range of industrial grade, cast iron gearboxes and motors are used in the most rigorous applications. GDS products are 100% duty cycle with intelligent inverters that provide the installer with a vast amount of options. The products are underpinned by exceptional service and support.

38 L-Fab  
40 L-Fab HS  
42 Big-Fab

# Toona 4

For swing gates with leaves up to 3 m

## Oz Kit

- Oz Kit 1**
- motor x 1
  - control unit x 1
  - receiver x 1
  - two channel remote x 2
- Oz Kit 2**
- motor x 2
  - control unit x 1
  - receiver x 1
  - two channel remote x 2

## Ideal for residential applications.

Electromechanical gear motor, surface mounted. Also available in 24 Vdc version, with magnetic encoder.

**Reliability and durability over time:** thanks to the housing, made up of two tough aluminium shells with polyester paint finish; more resistant to atmospheric agents.

Internal moving parts completely in steel, light alloys and technopolymers.

**Silent:** patented layout of internal parts and lead nut in bronze.

**Generously sized and practical connection compartment:** rapid and easy access from above to internal parts located in the upper section of the motor.

**Simple installation and maintenance:** with built-in capacitor.

**Recommended control units:** Mindy A6F, A60, A700F; Moonclever MC824H for TO4024.

**24 Vdc version** with magnetic encoder. **Perfect for intensive use**, compatible with the control unit Moonclever MC824H:

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

## DIMENSIONS

## UTILISATION LIMITS

The shape, the height of the gate and the weather conditions can considerably reduce the values shown in the graph to the side.

Use in windy areas 230 Vac models.

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

### PLA6

Rear bracket 250 mm long.

Pc./Pack 1

### PLA14

Screw-adjustable rear bracket.

Pc./Pack 2

### PLA15

Screw-adjustable front bracket.

Pc./Pack 2

### PLA10

Vertical 12 V electric lock.

Pc./Pack 1

### PLA11

Horizontal 12 V electric lock.

Pc./Pack 1

### PLA13

Mechanical travel stops for closing and opening manoeuvres.

Pc./Pack 4

## ACCESSORY FOR 24 V VERSION

### TS

Signboard.

Pc./Pack 1

### PS324

24 V battery with integrated battery charger.

Pc./Pack 1

### SOLEMYO KIT

The solar power to automate gates, garage doors or barrier gates.

See page 140.

# Toona HS

For rapid operation of swing gates with leaves of up to 5 m or 400 kg (TO5024HS) and up to 6 m or 1450 Kg (TO6024HS)

## Ideal for residential and industrial applications.

24 Vdc, electromechanical gear motor, surface mounted, with magnetic encoder.

ó **Quick manoeuvres:** 90° opening in about 16\* seconds with TO5024HS and about 30\* seconds with TO6024HS.

## Oz Kit

- Oz Kit 1**
- motor x 1
  - control unit x 1
  - receiver x 1
  - two channel remote x 2

- Oz Kit 2**
- motor x 2
  - control unit x 1
  - receiver x 1
  - two channel remote x 2

**Reliable:** the magnetic encoder ensures the safeguard of set values over time and precise obstacle detection.

**Silent:** patented layout of internal parts and lead nut in bronze.

**Sturdy:** thanks to the housing, made up of two tough aluminium shells with polyester paint finish; more resistant to atmospheric agents.

Internal moving parts completely in steel, light alloys and technopolymers.

**Generously sized and practical connection compartment:** rapid and easy access from above to internal parts located in the upper section of the motor.

**Simple installation and maintenance:** with built-in capacitor.

**Wholly compatible** with the Moby series: same dimensions and fixing brackets.

### Moonclever MC824H control unit:

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

\* Considering standard installation, excluding acceleration and deceleration.

## COMMON ACCESSORIES

**IBT4N**  
Interface for connecting the O-View programming unit.

Pc./Pack 1

**IT4WIFI**  
Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

**PS324**  
24 V battery with integrated battery charger.

Pc./Pack 1

**PLA10**  
Vertical 12 V electric lock (required for gates longer than 3 m).

Pc./Pack 1

**PLA11**  
Horizontal 12 V electric lock (required for gates longer than 3 m).

Pc./Pack 1

**TS**  
Signboard.

Pc./Pack 1

**PLA13**  
Mechanical travel stops for closing and opening manoeuvres.

Pc./Pack 4

**SOLEMYO KIT**  
The solar power to automate gates, garage doors or barrier gates.

See page 140.

# Titan HS

For rapid operation of swing gates with leaves of up to 3.7 m (TTN3724HS, TTN3724RHS), 6 m (TTN6024HS, TTN6024RHS) or 450 Kg

24 Vdc, electromechanical gear motor, surface mounted, with magnetic encoder.

ó **Quick manoeuvres:** 90° opening in about 12\* seconds with TTN3724HS and TTN3724RHS or 19\* seconds with TTN6024HS and TTN6024RHS.

## Oz Kit

- Oz Kit 1**
- motor x 1
  - control unit x 1
  - receiver x 1
  - two channel remote x 2
- Oz Kit 2**
- motor x 2
  - control unit x 1
  - receiver x 1
  - two channel remote x 2

**Reliable:** the magnetic encoder ensures the safeguard of set values over time and precise obstacle detection.

**Easy to install:** electrical connections easily accessible from above, thanks to the dedicated access. Fixing brackets are supplied with the motor.

**Versatile:** the motor can also be installed in the bottom part of the gate leaf, at a distance of at least 110 mm from the ground.

**Practical and safe:** easy convenient key release located in the top part of the motor, allowing the gate leaves to be opened and closed manually in the event of a blackout.

**Models TTN3724HS and TTN6024HS are compatible with the Moonclever MC824H control unit, while models TTN3724RHS and TTN6024RHS are compatible with the MC824HR control unit:**

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

\* Considering standard installation, excluding acceleration and deceleration.

# Wingo 2024/3524KCE

For swing gates with leaves from 2 m - 3.5 m

## Surface mounted 24 VDC electromechanical gear motor.

**Reliable and silent:** patented layout of internal parts, fewer moving parts.

**Easy to install:** after the gear motor has been assembled, all electrical connections are made from above.

**User-friendly release** with personalised Nice key and standard lock included.

## Oz Kit

- Oz Kit 1**
- motor x 2
  - control unit x 1
  - two channel remote x 2

**Pre-assembled,** travel stops on opening.

### Moonclever MC424L control unit:

- built-in radio receiver;
- simple programming, by means of a single key;
- clutch with anti-crush safety feature;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection system;
- can be linked to the 8.2 KOhm resistive sensitive edge;
- continues to work even during power failures using optional (PS124) batteries that fit inside the control unit.

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

### PS124

24 V battery with integrated battery charger.

Pc./Pack 1

### PLA14

Screw-adjustable rear bracket.

Pc./Pack 2

### PLA15

Screw-adjustable front bracket.

Pc./Pack 2

### PLA10

Vertical 12 V electric lock.

Pc./Pack 1

### PLA11

Horizontal 12 V electric lock.

Pc./Pack 1

### SOLEMYO KIT

The solar power to automate gates, garage doors or barrier gates.

See page 140.

Dimensions (mm)	770x98x95 h	920x98x95 h
Weight (kg)	6	6

## UTILISATION LIMITS

## DIMENSIONS WG2024

# Wingo HS

For hi-speed automation of swing gates with leaves up to 3 m or 200 Kg

## Ideal for residential applications.

24 Vdc, electromechanical gear motor, surface mounted, with magnetic encoder.

ó **Quick manoeuvres:** 90° opening in about 10\* seconds.

## Oz Kit

- Oz Kit 1**
- motor x 1
  - control unit x 1
  - receiver x 1
  - two channel remotes x 2
- Oz Kit 2**
- motor x 2
  - control unit x 1
  - receiver x 1
  - two channel remotes x 2

**Reliable:** the magnetic encoder ensures the safeguard of set values over time and precise obstacle detection.

**Silent:** patented layout of internal parts, fewer moving parts.

**Easy to install:** after the gear motor has been assembled, all electrical connections are made from above.

**Pre-assembled travel stops** on opening.

### Moonclever MC824H control unit:

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

\* Considering standard installation, excluding acceleration and deceleration.

Exclusive patented layout of internal parts

## COMMON ACCESSORIES

### IBT4N

# Oltre 1824

For swing gates with leaves up to 1.8 m and 100 kg

## Concealed motor for swing gates.

24 Vdc irreversible electromechanical gear motor.

**Minimum visual impact:** the motor is small enough to be easily installed inside the profiles of the gate leaf or in very slim posts (with a minimum diameter of 55 mm).

### Oz Kit

- Oz Kit 1**
- motor x 1
  - MC824L control unit x 1
  - receiver x 1
  - two channel remote x 2
- Oz Kit 2**
- motor x 2
  - MC824L control unit x 1
  - receiver x 1
  - two channel remote x 2

**Easy to install:** the bottom-up installation simplifies fixing of the motor inside the post.

**Resistant:** die-cast aluminium structure, IP67, resists the most severe weather conditions.

**Quick and reliable:** complete opening (90°) of the leaf in about 10 seconds. Oltre has been tested for use at 60 cycles/hour, making it suitable for all contexts with intensive use.

**Safe:** easy-to-use external manual release: the gate can always be opened manually, without having to take it apart.

#### **Dedicated Moonclever MC824L control unit:**

- easy to programme;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of resistive sensitive edges.

# Walkykit 1024

For swing gates with leaves up to 1.8 m

**Especially suited to gates in wood or PVC.**

Irreversible electromechanical gear motor at 24 Vdc, with articulated arm.

**Ultra compact:** ideal for pedestrian gates, recommended for small posts (width 8 cm).

**Safe:** thanks to the irreversible motor and anti-shear arm with built-in mechanical stop on closure (with installation of entire arm).

**Practical:** the articulated arm enables installation in specific conditions, such as in the presence of small walls or obstacles adjacent to the post.

**Quick:** no waiting in front of the gate, just 7 seconds to open or close (in optimal installation conditions, with reduced arm and 90° opening).

**Convenient:** incorporable flashing Led indicator, with courtesy light function (WLT, optional); rapid motor release for manual movement of the gate.

**Built-in control unit:**

- simple programming;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- provision for connection of latest generation resistive sensitive edges.

**No black out:** with the optional batteries (PS424) housed inside the gear motor.

**The kit contains:**

**WL1024C**

1 Electromechanical gear motor, surface mounted, with built-in control unit and OXI plug-in receiver.

**ON2E**

1 Transmitter 433.92 MHz, 2 channels.

**Convenient:** incorporable flashing Led indicator, with courtesy light function (WLT, optional); rapid motor release for manual movement of the gate.

### Built-in control unit:

- simple programming;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- provision for connection of latest generation resistive sensitive edges.

**No black out:** with the optional batteries (PS424) housed inside the gear motor.

**The Era Gate accessories,** with a minimal, modern and discreet design, renovate Nice kits' style and performance. Discover the complete range at page 119.

### The kit contains:

#### WL1024C + WL1024

2 Electromechanical gear motors, surface mounted WL1024C (with control unit and OXI plug-in receiver), WL1024 (without control unit).

#### ON3EBD

1 Transmitter 433.92 MHz, 3 channels.

#### EPMB

1 Couple of external photocells designed for connection by Nice BlueBUS.

#### EKS

1 Key selector switch for outdoor installation.

#### WLT

1 Flashing light.

#### TS

1 Signboard.

## UTILISATION LIMITS

**A** Entire arm - **B** Reduced arm

The shape, the height of the gate and the weather conditions can considerably reduce the values shown in the graph to the side.

## DIMENSIONS

# Hopp

For swing gates with leaves up to 2.4 m, ideal for large columns

## Ideal for intensive use.

Irreversible electromechanical 24 Vdc gear motor with articulated arm, surface mounted.

**Two irreversible 24 Vdc versions** with micrometric adjustment mechanical stops on opening and closing: with built-in control unit (HO7124) and without control unit (HO7224).

**Powerful** thanks to the 250 Nm torque.

**Resistant and compact:** 180 mm in width, ideal for any kind of post. Small shockproof body with aluminium base.

## Oz Kit

- Oz Kit 1**
- motor x 1
  - receiver x 1
  - two channel remote x 2
- Oz Kit 2**
- motor x 2
  - receiver x 1
  - two channel remote x 2

## Sturdy, aluminium anti-shearing arm.

**Easy to install:** thanks to the new fixing bracket with quick connector for the motor. No welding.

**Sophisticated electronics with the built-in control unit,** use 3 keys to manage all programming operations:

- obstacle detection;
- automatic fault diagnostics;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- possibility of configuring the stop input in self-learning mode, NO, NC and the latest generation 8.2 KOhm resistive sensitive edges;
- deceleration on opening and closing;
- simple connection of pairs of additional photocells;
- programming of pause time;
- pedestrian open and partial open;
- clutch with anti-crush safety feature.

**Energy saving with no black outs:** 3 standby modes to reduce mains consumption, or battery power consumption if connected to the Solemyo kit. Operation in the event of a power failure thanks to the optional batteries (PS124).

**Everything under control:** thanks to compatibility for operation with Opera BUS T4, the unit O-View can be used to expand the options of programming, control and diagnostics of the automation on site and remotely.

## COMMON ACCESSORIES

**IT4WIFI**  
Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

**POA3**  
Spare control unit for HO7124,  
Pc./Pack 1

**PS124**  
24 V battery with integrated battery charger.  
Pc./Pack 1

**PLA10**  
Vertical 12 V electric lock.  
Pc./Pack 1

**PLA11**  
Horizontal 12 V electric lock.  
Pc./Pack 1

**KIO**  
Key-operated selector switch for low voltage contacts, with release mechanism for metal cord.  
Pc./Pack 1

**KA1**  
6 m cable release kit for KIO.  
Pc./Pack 1

**TS**  
Signboard.  
Pc./Pack 1

**SOLEMYO KIT**  
The solar power to automate gates, garage doors or barrier gates.

See page 140.

- motor x 1
  - receiver x 1
  - two channel remote x 2
- Oz Kit 2**
- motor x 2
  - receiver x 1
  - two channel remote x 2

**Ultra-powerful and reliable:** thanks to the torque of 500 Nm and encoder technology, for millimetric precision and reliability.

**Safe movement:** dual technology obstacle detection.

**Sturdy:** thanks to the housing in aluminium with polyester paint finish, resistant to atmospheric agents.

**Two irreversible 24 Vdc versions** with limit switches on opening and closing: with built-in control unit (HK70240) and without control unit (HK7224).

**Practical and quick installation:** the articulated arm is adjustable in length for maximum flexibility.

**Simple and precise limit switch adjustment:** mechanical stops and micrometric adjustment screws.

**No black out:** with the optional batteries (PS124) housed inside the gear motor.

**Built-in control unit (HK7024):**

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- provision for connection of latest generation resistive sensitive edges.

\* Considering standard installation, excluding acceleration and deceleration.

## COMMON ACCESSORIES

# S-Fab

For swing gates with leaves up to 2.3 m,  
underground installation, ultra compact

Foundation box with  
cataphoresis paint finish

Waterproof,  
with IP67 protection rating

Irreversible electromechanical 24 Vdc gear motor, ideal for intensive use

**Sturdy and discreet:** compact foundation box with a height of only 81 mm.

Steel with cataphoresis paint finish guarantees optimal resistance to corrosion, and thickness of 2.5 mm guarantees strength. Protrudes only 52mm above the ground.

**Practical and quick installation:** thanks to the exit lever on the gear motor attached directly on the leaf.

**Opening up to 180° as standard.**

## Oz Kit

- Oz Kit 1**
- motor x 1
  - control unit x 1
  - receiver x 1
  - two channel remote x 2

- Oz Kit 2**
- motor x 2
  - control unit x 1
  - receiver x 1
  - two channel remote x 2

**Reliable and sturdy:** the gear motor, in IP67 pressure die cast aluminium, suspended inside the housing to enable drainage of any deposits, ensures optimal water resistance.

**Load-bearing foundation box** with adjustable mechanical stops on opening and closing. The gear motor can also be installed later as required.

**Practical release** easy to operate from inside and outside, acting directly on the gear motor, easy to operate by means of the special key.

**SFAB2024, compatible with the control unit Moonclever MC424L, and for operation with Solemyo and Opera systems:**

- built-in radio receiver;
- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection system;
- provision for connection of latest generation resistive sensitive edges;
- operation in event of power failure by means of optional rechargeable batteries (PS124) with compartment in control unit.

**SFAB2124 with magnetic encoder, compatible with control unit Moonclever MC824H, with BlueBUS technology, and compatible for operation with Solemyo and Opera systems:**

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- with output for courtesy light and maintenance indicator;
- speed settings on 5 levels;
- separate and configurable inputs for Step by Step, Open and Close;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- provision for connection of latest generation resistive sensitive edges;
- operation in event of power failure by means of optional rechargeable batteries (PS324).

# M-Fab

For swing gates with leaves up to 3 m, underground installation

Irreversible electromechanical gear motor, also available in 24 Vdc versions with magnetic encoder.

### 3 types of electromechanical gear motors M-Fab.

**Foundation boxes externally chamfered, Fab Box,** with mechanical stop on opening:

- **in stainless steel** (MFABBOXI), ideal for use in extreme conditions;
- **with the cataphoresis paint finish** (MFABBOX), highly resistant to corrosion.

**Reliable and resistant:** motors made up of solid internal parts in metal. New IP67 waterproof die cast aluminium.

**Total freedom of choice:** release from inside and outside, two key-operated models or freely compatible lever version and easily activated with just one hand.

**Simple to use:** mechanical stop system on closure. Standard opening max. 110°, optional opening 360°.

**Totally compatible with the previous Metro series.**

**Recommended control units:** Moonclever MC800 for MFAB3000 and MFAB3000L; Moonclever MC824H for MFAB3024.

**24 Vdc version** with magnetic encoder.

**Perfect for intensive use,** compatible with the control unit Moonclever MC824H:

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

## Oz Kit

- Oz Kit 1**
- motor x 1
  - control unit x 1
  - receiver x 1
  - two channel remote x 2
  - foundation box x 1
  - unlock system x 1

- Oz Kit 2**
- motor x 2
  - control unit x 1
  - receiver x 1
  - two channel remote x 2
  - foundation box x 2
  - unlock system x 2

Even more reliable and resistant

Waterproof, with IP67 protection rating

Externally chamfered FAB BOX

## DIMENSIONS

## UTILISATION LIMITS

The shape, the height of the gate and the weather conditions can considerably reduce the values shown in the graph to the side. Use in windy areas 230 Vac models.

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

### PS324

24 V battery with integrated battery charger.

Pc./Pack 1

### MEA2

Key unlock system.

Pc./Pack 1

### MEA3

Lever-type key unlock system to use when system is installed on surfaces such as sand or earth.

Pc./Pack 1

### MEA5

Lever-type unlock key.

Pc./Pack 4

### MEA6

Limit switch bracket, for installations where box embedding in concrete is not possible.

Pc./Pack 4

### MEA1

Accessory for opening up to 360° for gates max. 2.5 m in length.

Pc./Pack 4

### PLA10

Vertical 12 V electric lock.

Pc./Pack 1

### PLA11

Horizontal 12 V electric lock.

Pc./Pack 1

### TS

Signboard.

Pc./Pack 1

### SOLEMYO KIT

The solar power to automate gates, garage doors or barrier gates.

See page 140.

# M-Fab HS

For hi-speed automation of swing gates with leaves up to 3 m or 300 Kg

**Underground installation, ideal for residential applications.**

24 Vdc electromechanical gear motor, with magnetic encoder.

Ó **Ideal for intensive use and quick manoeuvres:** 90° opening in about 8\* seconds.

**Foundation boxes externally chamfered, Fab Box with mechanical stop on opening:**

- **in stainless steel** (MFABBOXI), ideal for use in extreme conditions;
- **with the cataphoresis paint finish** (MFABBOX), highly resistant to corrosion.

**Reliable and resistant:** motors made up of solid internal parts in metal. New IP67 waterproof die cast aluminium.

**Total freedom of choice:** release from inside and outside, two key-operated models or freely compatible lever version and easily activated with just one hand.

**Simple installation:** mechanical stop system on closure. Standard opening max. 110°, optional opening 360°.

**Totally compatible with the previous Metro series.**

**Moonclever MC824H control unit:**

- simple programming, by means of a single key;
- automatic memorisation of limit switches on opening and closing with self-learning function;
- automatic fault diagnostics;
- programming of pause time;
- pedestrian pass door;
- deceleration on opening and closing;
- obstacle detection with dual technology;
- operation in event of power failure by means of optional rechargeable batteries (PS324);
- provision for connection of latest generation resistive sensitive edges.

\* Considering standard installation, excluding acceleration and deceleration.

## COMMON ACCESSORIES

### IT4WIFI

# Naked Sliding 400

Nice concealed motor for sliding gates up to 400 Kg with leaf length up to 6 m

Motor with built-in control unit and absolute encoder which can be installed inside a compact post with suitable holes.

Its **extremely small size** allows the motor to be installed even in very slender posts, with interior size down to 140x140 mm.

**User-friendly:** thanks to the BlueBUS system, allowing the control unit to be connected to up to 7 pairs of photocells and control, security and signalling devices with just two wires.

**Master/slave selection:** for automatic synchronisation even of 2 motors, allowing automation of sliding gates with two opposing leaves.

**Intelligent:** thanks to obstacle detection and automatic working time programming. Self-diagnostics with flashing light signalling.

**Safe:** acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

**Simple and precise limit switch adjustment:** integral absolute limit switch, quick learning with just one opening or closing operation with motor released.

**Practical:** control unit and optional PS124 buffer batteries can be connected by means of practical guided - connector.

**Flexible:** unlocking can be provided on both sides of the post and/or on the outside (with the KIO and KA1 accessories). Also easy to install on existing posts.

## COMMON ACCESSORIES

**IBT4N**  
Interface for connecting the O-View programming unit.

Pc./Pack 1

**IT4WIFI**  
Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

**NKA3**  
Spare control unit,  
Pc./Pack 1

**PS124**  
24 V battery with integrated battery charger.

Pc./Pack 1

**ROA6**  
M4 25x20x1000 mm slotted nylon rack with metal insert. For gates weighing up to 500 kg.

Pc./Pack 10

**KA1**  
6 m cable release kit for KIO.

Pc./Pack 1

**KIO**  
Key-operated selector switch for low voltage contacts, with release mechanism for metal cord.

Pc./Pack 1

**TS**

# Slight

Nice motor for sliding gates up to 400 kg with leaf length up to 6 m

Motor with built-in control unit and absolute encoder.

**Innovative ultra-compact design:** the vertical configuration of the motor makes it easy to install even in narrow openings.

**User-friendly:** thanks to the BlueBUS system, allowing the control unit to be connected to up to 7 pairs of photocells and control, security and signalling devices with just two wires.

**Built-in LED light:** programmable as either a flashing or courtesy light, it warns of gate movement during opening and closing.

**Master/slave selection:** for automatic synchronisation even of 2 motors, allowing automation of sliding gates with two opposing leaves.

**Intelligent:** thanks to obstacle detection and automatic working time programming. Self-diagnostics with flashing light signalling.

**Safe:** acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

**Built-in absolute limit stop:**

- simple and precise regulation thanks to the rapid learning in a single movement with the motor released;
- no bracket or accessory to be installed on the ratchet;
- particularly suitable in snow areas.

**Practical:** control unit and optional PS124 buffer batteries can be connected by means of practical guided - connector.

## Oz Kit

- Oz Kit**
- motor x 1
  - lengths of rack x 4
  - receiver x 1
  - two channel remote x 2

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

### NKA3

Spare control unit,

Pc./Pack 1

### PS124

24 V battery with integrated battery charger.

Pc./Pack 1

### ROA6

M4 25x20x1000 mm slotted nylon rack with metal insert. For gates weighing up to 500 kg.

Pc./Pack 10

### TS

Signboard.

Pc./Pack 1

### SOLEMYO KIT

The solar power to automate gates, garage doors or barrier gates.

See page 140.

# Robus HS

For hi-speed automation of sliding gates weighing up to 500 kg (RB500HS)

Compartment for control unit  
protected by removable box

Pressure die-cast aluminium base  
and release, with epoxy painting

## For residential and industrial applications.

24 Vdc electromechanical gear motor.

Ó **Ideal for intensive use:** opening a 4 m gate takes around 9\* seconds with RB500HS.

## Oz Kit

- Oz Kit**
- motor x 1
  - lengths of rack x 4
  - receiver x 1
  - two channel remote x 2

**User-friendly:** thanks to the Nice BlueBUS technology, the control unit can be connected to up to 7 couples of photocells, control, security and signalling devices, using two wires only.

**Practical:** control unit and buffer batteries PS124 (optional) connected by practical guided plug-in connector, housed in the gearmotor.

**Advanced:** the temperature sensor adapts the motor power to the climatic conditions and at the same time thermal cut-out; a master/slave selection automatically synchronises two motors. This means it is possible to automate 2-leaf sliding gates set opposite each other..

**Intelligent:** thanks to the obstacle detection system and automatic programming of the working times. Self-diagnosis by means of a flashing light. 8 programming levels.

**Safe:** acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

**Sturdy:** base and release in pressure die cast with easy to open handle.

**Silent:** gear motor on bearings.

\* Considering standard installation, excluding acceleration and deceleration.

## COMMON ACCESSORIES

**IBT4N**  
Interface for connecting the O-View programming unit.

Pc./Pack 1

**IT4WIFI**  
Smart Wi-fi interface to manage gates and garage doors by smartphone (\*).

Pc./Pack 1

**RBA3/HS**  
Spare control unit for RB250HS and RB500HS.

Pc./Pack 1

**PS124**  
24 V battery with integrated battery charger.

Pc./Pack 1

**RBA1**  
Inductive limit switch.

Pc./Pack 1

**ROA6**  
M4 25x20x1000 mm slotted nylon rack with metal insert. For gates weighing up to 500 kg.

Pc./Pack 10

**ROA7**  
M4 rack, zinc coated, 22x22x1000 mm.

Pc./Pack 10

**ROA8**  
M4 rack, 30x8x1000 mm, zinc coated with spacers and screws.

Pc./Pack 10

**TS**  
Signboard.

Pc./Pack 1

**SOLEMYO KIT**  
The solar power to automate gates, garage doors or barrier gates.

See page 140.

\* Not compatible with the Solemyo kit and PS124

# Run HS

For hi-speed automation of sliding gates weighing up to 1200 kg (RUN1200HS)

## For residential and industrial applications.

24 Vdc electromechanical gear motor.

Ó **Rapid manoeuvres, with opening and closing:** Opening a 7 m gate takes around 18\* seconds with RUN1200HS.

## Oz Kit

- Oz Kit**
- motor x 1
  - lengths of rack x 4
  - receiver x 1
  - two channel remote x 2

**The fastest:** ideal for industrial applications, designed for intensive use.

**User-friendly:** thanks to the Nice BlueBUS technology, the control unit can be connected to up to 7 couples of photocells, control, security and signalling devices, using two wires only.

**Practical:** the control unit and PS524 battery charger (to which two B12-B batteries should be added) can be connected by means of a simple connector and can be housed directly inside the motor.

**Advanced:** the temperature sensor adapts the motor power to the climatic conditions. A master/slave selection automatically synchronises two motors. This means it is possible to automate 2-leaf sliding gates set opposite each other.

**Intelligent:** thanks to the obstacle detection system and automatic programming of the working times. Self-diagnosis by means of a flashing light. 8 programming levels.

**Safe:** acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

# Roadkit

For sliding gates weighing up to 400 kg

**Practical:** built-in control unit, can be connected by means of a simple connector and can be housed directly inside the motor; incorporated radio card, compatible with the Nice Flo and Smilo systems: 100 transmitters can be entered!

**Advanced:** decelerations can be managed directly from the control unit and gate movement speed and force can be adjusted.

**Intelligent:** thanks to the obstacle detection system and automatic programming of the working times. Self-diagnosis by means of a flashing light.

**Practical:** the control unit and PS124 buffer battery (optional) can be connected by means of a simple connector and can be housed directly inside the motor.

## Oz Kit

Oz Kit • lengths of rack x 4

**The Era Gate accessories,** with a minimal, modern and discreet design, renovate Nice kits' style and performance. Discover the complete range at page 119.

### The kit contains:

#### RD400

1 Non-reversible electromechanical gearmotor, 24 VDC, with control unit and built-in receiver, designed to take the PS124 buffer battery (optional)

#### FLO2RE

2 Transmitter 433.92 MHz, 2 channels.

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone (\*).

Pc./Pack 1

### RBA4

Spare control unit for RDKCE.

### PS124

24 V battery with integrated battery charger.

Pc./Pack 1

### CM-B

Pawl with two metal release keys.

### ROA6

M4 25x20x1000 mm slotted nylon rack with metal insert. For gates weighing up to 500 kg.

Pc./Pack 10

## TECHNICAL SPECIFICATIONS

Code	Description
<b>RDKCE</b>	Kit for the automation of sliding gates up to 400 kg and up to 6 m length, 24 Vdc, with incorporated control unit and receiver

**N.B.** The content of the package may vary: consult the retailer.

## DIMENSIONS

# Run 1500

For sliding gates weighing up to 1500 kg

Versions with electromechanical limit switch (RUN1500) and with inductive limit switch (RUN1500P).

**User-friendly:** thanks to the BlueBUS system, allowing the control unit to be connected to up to 7 pairs of photocells and control, security and signalling devices with just two wires.

**Practical:** the control unit and PS124 buffer battery (optional) can be connected by means of a simple connector and can be housed directly inside the motor.

**Advanced:** the temperature sensor adapts the motor force to weather conditions, setting the thermal cut-out protection accordingly; a master/slave selection automatically synchronises 2 motors, enabling the automation of sliding gates with two opposing leaves.

**Intelligent:** thanks to the obstacle detection system and automatic programming of the working times. Self-diagnosis by means of a flashing light.

8 programming levels.

**Safe:** acceleration and deceleration can be adjusted at the beginning and at the end of each opening and closing manoeuvre.

**Sturdy:** base and release in pressure die cast with easy to open handle.

**Silent:** gear motor on bearings.

## Oz Kit

- Oz Kit**
- motor x 1
  - lengths of rack x 4
  - receiver x 1
  - two channel remote x 2

Compartment for control unit  
protected by removable box

Pressure die-cast aluminium base  
and release, with epoxy painting

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

### RBA3

Spare control unit for RB400, RB600/600P, RB1000/1000P and RUN1500/1500P.

Pc./Pack 1

### PS124

24 V battery with integrated battery charger.

Pc./Pack 1

### RBA1

Inductive limit switch.

Pc./Pack 1

### ROA7

M4 rack, zinc coated, 22x22x1000 mm.

Pc./Pack 10

### ROA8

M4 rack, 30x8x1000 mm, zinc coated with spacers and screws.

Pc./Pack 10

### ROA81

M6 rack, 30x30x1000 mm, zinc coated, to be coupled with RUA12.

Pc./Pack 10

### RUA12

12-teeth pinion, module 6, to be coupled with rack ROA81. The Run automation is supplied with a module 4 pinion to be used with the standard racks ROA7 and ROA8.

Pc./Pack 1

### TS

Signboard.

Pc./Pack 1

### SOLEMYO KIT

The solar power to automate gates, garage doors or barrier gates.

See page 140.

# Run 2500

For sliding gates weighing up to 2500 kg

## Suitable to operate in extreme conditions, in systems for intensive use.

Ventilated motor with electromechanical limit switch (RUN2500I).

**Easy to install:** the BlueBUS system enables connections by means of just two wires between the control unit and up to 15 control safety and signalling devices.

**Safe:** the acceleration settings (at the start of the manoeuvre) and the deceleration settings (at the end of the manoeuvre) are precise and reliable.

**Advanced temperature sensor:** Run is able to manage force, adapting it to the different climatic and environmental conditions, while adapting the thermal cut-out protection and intensity of self-ventilation, depending on the temperature reading.

**Master/slave selection:** for automatic synchronisation even of 2 motors, allowing automation of sliding gates with two opposing leaves.

**Practical and functional:** the control unit (and inverter on version RUN2500I), housed inside Run, can be simply connected by means of the practical connector guide.

**Silent:** gear motor on bearings.

## RUN2500I version with built-in inverter

**Perfect movement:** the inverter enables the power supply and drive of the 3-phase motor with single-phase current at 230 Vac, acting on the frequency to adjust speed of the automation from a minimum of 8.2 m/min to maximum 15.4 m/min. In the automation deceleration phase, the inverter, which dialogues with the control unit, increases the torque, thus improving performance and reducing the risk of the automation blocking on impact with obstacles.

Compartment for control unit  
protected by removable box

Pressure die-cast aluminium base  
and release, with epoxy painting

## COMMON ACCESSORIES

**IT4WIFI**  
Smart Wi-fi interface to manage gates and garage doors by smartphone.

Pc./Pack 1

**RUA1**  
Spare control unit for RUN1800/1800P and RUN2500/2500P.

Pc./Pack 1

**RUA2**  
Spare control unit, for RUN2500I.

Pc./Pack 1

**RUA3**  
Spare inverter for RUN2500I.

Pc./Pack 1

**ROA7**  
M4 rack, zinc coated, 22x22x1000 mm.

Pc./Pack 10

**ROA8**  
M4 rack, 30x8x1000 mm, zinc coated with spacers and screws.

Pc./Pack 10

**ROA81**  
M6 rack, 30x30x1000 mm, zinc coated, to be coupled with RUA12.

Pc./Pack 10

**RUA12**  
12-teeth pinion, module 6, to be coupled with rack ROA81. The Run automation is supplied with a module 4 pinion to be used with the standard racks ROA7 and ROA8.

# Drive 300

Sliding gate motors

**Designed for residential sliding gates,  
up to 300 kg**

- cost effective residential sliding gate automation
- tough DC motor with removable brushes for easy maintenance
- LED display for easy programming and diagnostics
- security gate and safety beam tamper alarm monitoring
- electronic locking of motor unit with remote control for added security
- ET-Blu Mix® enhanced rolling code receiver on board

Drive 300

ACCESSORIES

**ET-BLU MIX**  
Rolling code remote transmitter.

**BLUE i**  
Safety beams.

**MD2010**  
Metal loop detector.

**E-PAD O2**  
Wireless access control keypad.

**INTERCOM**  
Internal and external kit.

**ET-BLU MIX**  
Long range transmitter/receiver equipment.

**STEEL OR NYLON RACK**

**SOLEMYO KIT**  
The solar power to automate gates, garage doors or barrier gates.

# Giro

For balanced rolling shutters up to 170 kg and 340 kg

Electromechanical gear motor available both in reversible and irreversible version.

**High performance:** new irreversible twin-motor version with 800 W power and lifting force up to 340 Nm.

**Unbeatably flexible use and less inventory to keep in stock:** a single model that is designed to take a 76 mm rolling shutter shaft but can be easily adapted to take a 60 or 48 mm shaft, covering the full range of most commonly used sizes.

The outside diameter of the gear can be adapted from 200 mm to 220 or 240 mm, allowing installation on most rolling shutters.

**Technologically innovative:** the brake is built into the gearmotor and results in much smoother operation than the traditional solution.

**Easy limit switch adjustment:** automatic limit switch adjustment is achieved by simply operating the rolling shutter without any load, with the motor released, and then just fine-tuning the system manually.

**Simple system for releasing both motors at the same time.**

**Recommended control unit:** MC200.

## QUICK AND EASY INSTALLATION

**During installation, the motor is supported on the shaft thanks to the practical guided coupling.**

Practical:  
limit switches for both  
closing and opening,  
easy to adjust

Versatile:  
can be used with  
76, 60 and 48 mm shafts

Strong:  
100% aluminium housing

**Twin-motor version:**  
maximum power, ideal for  
the toughest applications

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone.

Pc./Pack 1

### MC200

Control unit with automatic closing.

Pc./Pack 1

### GRA02

Adapter for 48 mm shaft.

Pc./Pack 1

### GRA03

Adapter for 240 mm gear diameter.

Pc./Pack 1

### GRA01

Additional motor for GR170, complete with accessories for simultaneous release.

Pc./Pack 1

### KIOMINI

Aluminium key switch/switch lock box with control and release button.

Pc./Pack 1

### KIO

Key-operated selector switch for low voltage contacts, with release mechanism for metal cord.

Pc./Pack 1

### TS

Signboard.

Pc./Pack 1

# Rondo

For balanced rolling shutters up to 170 kg

Electromechanical irreversible gearmotor irreversible.

**Smart:** the wiring are protected by an elegant box; pre-wired capacitor.

**Fast:** easy and intuitive adjustment of the limit switches both during opening and closing.

**Complete:** with 200 mm external flange diameter and 220 mm adapters, for 60 mm shafts and adapters for 48 mm.

**Easy to install:** thanks to the guided connector, you don't need to hold the motor while you secure it using just 3 screws.

**Recommended control unit MC200, easy, complete and reliable with:**

- compatible with the Opera system;
- remote control with the MyNice Welcome app (IT4WIFI interface is needed);
- semi-automatic or automatic operation;
- complete reverse run with photocell;
- step-by-step operation;
- programmable Step-by-step/Open input;
- programmable Stop/Photo input;
- input for resistive edge;
- incorporated radio card, compatible with the Nice Flo, FloR and Smilo systems.

Sturdy: housing  
in 100% aluminium

Practical: easy to adjust, electromechanical  
limit switches both during closing and  
opening

Complete: designed  
for cordoperated  
release

# Sumo

For sectional doors and two-wings sliding doors up to 35 m<sup>2</sup>

24 Vdc electromechanical gear motor with magnetic encoder, no need to adjust limit switches. Perfect for intensive use.

**Revolutionary aesthetics:** compact, particularly in width, in order to make assembly easy in any position; quick to install.

**Easy to install:** can be fitted directly onto the shaft of sectional doors. Perfect for Ø 25.4 mm shafts and can be used also with Ø 31.75-35-40 mm shafts thanks to the CRA9 adapter.

**Many different functions with the separate Mindy A924 control unit:**

- automatic memorisation of limit switches on opening and closing;
- gradual departure and slowdown during closing;
- integrated battery charge card with optional battery power supply in the event of power failures;
- easy programming by pressing a single button;
- pause time programming and speed adjustment;
- "service" warning light for maintenance (can be programmed according to the number of manoeuvre required).

Case totally made from thick die-cast aluminium

Inspection compartment, easy to access for connections

Release cord, 6.5 m long, with emergency handle

## COMMON ACCESSORIES

\* Radio receiver incompatible with Opera system

# Spinbuskit 20/22/23

For sectional doors up to 10.5 m<sup>2</sup> and up-and-over garage doors up to 11.8 m<sup>2</sup>

Three versions in kit:

- rail in three 1 m pieces SPIN20KCE;
- pre-mounted guide of 4 m (3+1 m) SPIN22KCE;
- with pre-mounted guide of 3 m SPIN23KCE.

**Rapid installation - anywhere!** The adjustable head, cord-type release and cable-controlled, step-by-step release can be fitted in any part of the garage in order to operate the system without a remote control device and without the need to install wall-mounted control units.

**Inexpensive to run and environmentally-friendly:** with mains electricity, the control unit in stand-by with radio connected consumes just 5.2 W; connected to a battery or the Solemyo kit, consumption in stand-by drops to 0.036 W.

**User-friendly thanks to the BlueBUS system:** which enables connection by means of just two wires between the control unit and pair of photocells.

**No black out:** operation in event of power failure with optional PS124 batteries insertable in the motor.

**Safe:** obstacle detection system and automatic programming of the working times; motor absorption is monitored during movement, self-diagnosis by means of a flashing light and courtesy LED light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Can be connected with latest generation sensitive edges 8.2 KOhm.

**Built-in LED courtesy light.**

## The kit contains:

### SN6021

1 Gear motor with built-in SN6021 control unit and OXI plug-in receiver.

### FLO2RE

1 Transmitter 433.92 MHz, 2 channels.

### SPIN20KCE

1 Guide in three 1-metre sections.

### SPIN22KCE

1 Guide in one 3-metre section + one 1-metre section.

### SPIN23KCE

1 Guide in one 3-metre section.

## COMMON ACCESSORIES

### IBT4N

Interface for connecting the O-View programming unit.

Pc./Pack 1

### IT4WIFI

Smart Wi-fi interface to manage gates and garage doors by smartphone. (Not compatible with the Solemyo kit and battery backup.)

Pc./Pack 1

### SNA20

Spare control unit, for SPIN20KCE, SPIN22KCE e SPIN23KCE.

### PS124

24 V battery with integrated battery charger.

Pc./Pack 1

### SPA2

Kit for unlocking from the outside with cable.

Pc./Pack 1

### SPA5

Oscillating arm sliding on bearings with optimised structure for projecting up-and-over doors.

Pc./Pack 1

### SPA6

Large 585 mm long connecting arm.

Pc./Pack 1

### SPA7

Kit of two additional fixing brackets.

Pc./Pack 2

### SNA16

Quick-connect brackets for ceiling mounting.

Pc./Pack 10

### TS

Signboard.

Pc./Pack 1

### SOLEMYO KIT

The solar power to automate gates, garage doors or barrier gates.

See page 140.

## DIMENSIONS

# Spykit 550

For sectional doors up to 9 m<sup>2</sup> and up-and-over doors (including canopy doors) up to 10.5 m<sup>2</sup>

24 Vdc irreversible electromechanical gear motor for residential use, transmission with rack on the rail.

To be combined with SPYRAIL321, SPYRAIL162 and SPYRAIL081 rails.

**Functional and stylish:** the motor is the only component that moves on the rail, there are no chains or other noisy mechanisms. Ideal for any architectural context.

**Handy:** Separate control unit: more practical and convenient for programming and maintenance. Built-in LED courtesy light. Three practical keys to control the automation.

**Quick to install:** modular rail with assembly accessories. Limit switches easy to position along the rail with no need to stand and work on the ceiling. No chains or other noisy mechanisms to install.

**Easy to program:** simple and fast basic programming, using the Quick Setup procedure. Simplified advanced programming, using O-View.

**ON/OFF release system:** pulling the release knob once releases the motor; pulling it a second time blocks the motor again, in any position along the rail.

**Inexpensive to run and environmentally-friendly:** when connected to the mains in standby mode, the control unit consumes 1.5 W.

**Safe:** obstacle detection, motor power monitoring during travel, diagnostic messages via flashing light and courtesy light.

Adjustable acceleration and deceleration at the start and end of each manoeuvre.

Ready for installation of the latest generation 8.2 kOhm resistive sensitive edges.

**Optimised logistics:** for practical management and transport, the rails are available in different sizes: single 3.2 m long rail, or supplied in two 1.6 m sections plus a 0.8 m extension.

## The kit contains:

### SPY550

1 SPY550 gearmotor, 550 N.

### SPYBOX

1 Control unit with built-in LED courtesy light and receiver.

### FLO2RE

1 Transmitter 433.92 MHz, 2 channels.

### SPYRAIL081

1 extension in 0.8m section.

### SPYRAIL321

1 Guide in one 3-metre section.

# DC Blue

## Advanced Roll up

Designed for residential roll-up doors  
garage doors up to 8m<sup>2</sup>

### DC Blue Advanced Roll-up Garage Door Operator

- cost effective residential roll-up door operator
- reliable operation through advanced door load profiling
- easy installation
- no physical limit switches to setup
- separate control box
- true battery backup (operator not battery dependent)
- bright led courtesy light
- better security
- ET-blu mix® receiver (unhackable & uncrackable)
- door alarm monitoring
- safety beam monitoring
- electric lock control feature
- holiday lock-out

ACCESSORIES

**ET-BLU MIX**  
Rolling code remote transmitter.

**ET-BLU MIX**  
Rolling code receivers.

**ET-BLU MIX**  
Long range transmitter/receiver equipment.

**E-PAD O2**  
Wireless access control keypad.

**STRIKE LOCK**

**E-COMS RELAY MODULE**  
For switching of external lights or locks.

**BLUE i**  
Safety beams.

**BATTERY BACKUP**

**EMERGENCY ESCAPE LOCK**

**SOLEMYO KIT**  
The solar power to automate gates, garage doors or barrier gates.  
See page 140.

**PROUDLY  
DESIGNED AND  
MANUFACTURED IN  
SOUTH AFRICA**

TECHNICAL SPECIFICATIONS

Code	<b>DC BLUE ADVANCED ROLL-UP</b>
Input voltage: (Standard kit option)	220VAC, 50Hz
Primary supply to the electric motor	24V Toroidal transformer
Battery backup	Yes BUT not battery dependent (battery optional)
Duty Cycle Maximum	25% with 220Vac present*
Number of operations on battery reserve w/out AC mains present	25 within the first 24h of power failure**
Maximum door size	8m <sup>2</sup>
Applicable door types	One-piece roll-up doors
Maximum running load	40Nm**
Rated speed	10 m/min (Drum speed)†
Built-in receiver	434MHz, ET-Blu Mix © rolling code with 31 user capacity

\* At rated running load \*\* Battery charge level and health dependent  
† Dependent on factors such as battery status, door load, mains voltage, environment

DIMENSIONS

# DC Blue

Advanced Pico/ Advanced

## DC Blue Advanced Pico (Up & over and Sectional Garage Door Motor)

- cost effective single garage door automation
- intelligent door load profiling for added safety and control
- reliable and powerful proven DC Blue Advanced technology
- simple to program and fault find with 7 segment LED display
- sleek, modern design
- safety beam input
- selectable automatic closing LED courtesy light; optional external light control
- added security via optional electric lock control
- built-in ET-Blu Mix® enhanced rolling code receiver

## DC Blue Advanced (Up & over and Sectional Garage Door Motor)

- battery backup (Battery Included)
- LED programming and fault display
- LED courtesy light
- powerful motor
- safety beam input
- adjustable electronic limits and force control
- selectable automatic closing
- on-board dual channel rolling code radio receiver (©G&C Electronics CC T/A E.T. Systems 2010)
- 2 x 4 button dual technology remotes
- audible diagnostics
- electronic lock-out
- optional external status, light and lock control

ACCESSORIES

**ET-BLU MIX**  
Rolling code remote transmitter.

**ET-BLU MIX**  
Rolling code receivers.

**ET-BLU MIX**  
Long range transmitter/receiver equipment.

**E-PAD O2**  
Wireless access control keypad.

**STRIKE LOCK**

**E-COMS RELAY MODULE**  
For switching of external lights or locks.

**BLUE i**  
Safety beams.

**BATTERY BACKUP**

**EMERGENCY ESCAPE LOCK**

**BELT DRIVE**  
Super silent and steel reinforced.

**SOLEMYO KIT**  
The solar power to automate gates, garage doors or barrier gates.  
See page 140.

Drive Bolt Slim	101	Drive Bolt GDS D8 Slim (130 or 130 SLIM)

**MANUFACTURED AND DESIGNED IN AUSTRALIA**

Nice Australia recommend that all gate automation should include photo electric cells, warning signs and any other safety device required for the individual installation

# Sliding Gate Operators

Low voltage

230/450 LVL

316 stainless  
steel cover

Low voltage sliding gate operators have been designed to fill a place in the market specifically for large industrial operators with low voltage requirements. These operators are for use on track gates on level ground.

## Low voltage sliding gate operators

- compact
- quick fitting
- high duty cycle
- inbuilt control panel with 24v supply and battery backup as standard
- variable ramp up, ramp down, DC drive with variable open and close speeds
- 316 stainless steel cover
- control board has the facility for
  - safety photo electric cells
  - induction loops
  - remote control
  - contacts available for other functionality

Inbuilt control panel with 24v  
supply and battery backup  
as standard

## ACCESSORIES

### BUMP KIT

Sensitive Edge Safety Strip High Mechanical edge/aluminium profile 1.5m in length.

### FT 210 NICE

Optical device, with wireless transmitter to secure on movable leaf, horizontal adjustable through 210° and 30° vertically for an automation according to standards.

### F 210 NICE

Synchronised photocells horizontally adjustable through 210° and 30° vertically -simply perfect installations.

### NIR-50 REFLECTIVE PE

12-24VDC  
24-240VAC

### RN6D

Heavy duty nylon rack 6 lugs down.

### JAB 13500405

12-24AC/DC

### MCSV2

Elsma MCSv2 board  
A circuit board to suit a range of low voltage applications.

### LD ULTRA DIN

Ultra DIN Loop Detector 9-30V DC (12-24vdc/24vac)  
Application Loop Detectors for sensing traffic presence.

### FOB43304

4 Channel Pentafob transmitter hardwearing and durable.  
For use with receiver boards.

### S LSW

50:1/100:1  
Ravioli limit switch.

### BS-FLO1

12-24VDC  
LED Flashing Light  
24VDC

316 stainless steel cover

GDS 940 PI with smart inverter driven controls

940PI

Single phase 240v inverter driven sliding gate operators are designed to provide the force and intensity of a 3 phase motor with the convenience of single phase input.

Inverter upgrades available to suit your application.

## Sliding gate operators

- inverter driven with a powerful microprocessor control board which allows maximum functionality for easy control over ramp up/ramp down and opening/closing speeds for the ultimate experience in gate automation
- fast emergency stopping feature with inbuilt easy limits
- 100% duty cycle
- cast iron industrial grade gearboxes

GDS 630 LI with Delta inverter

315LI/450LI/630LI

## DIMENSIONS

# Chain Sliders

630CH HD (HEAVY DUTY), 630 CH

Industrially powder coated cover

Single phase 240v inverter and chain driven sliding gate operators are designed to provide the force and intensity of a 3 phase motor with the convenience of single phase input. Chain Sliders are perfect for uneven ground, long/heavy gates (approx. 2 tonnes) that may be subject to bending during hot weather.

Inverter upgrades available to suit your application.

## Chain sliders

- inverter driven with a powerful microprocessor control board which allows maximum functionality provides easy control over ramp up/ramp down and opening/closing speeds for the ultimate experience in gate automation
- 100% duty cycle
- cast iron industrial grade gearboxes

Smart inverters for functionality

## ACCESSORIES

## TECHNICAL SPECIFICATIONS

MODEL	630 CH	630 CH HD
Motor Power	750 w	1100 W
Gate Size Max	630mm/sec variable speed	630mm/sec variable speed
Input Power	240V 10A	240V-10A

## TECHNICALITIES

Includes chain mounting bracket and holders

It's recommended that chain supports are installed at a maximum of one metre apart

Unit is fixed by bolting the mounting plate with four M12 masonry anchor bolts

Chain sold separately

## DIMENSIONS

# Belt Drive

450/630 BELT, 230/450 LVL BELT

**Belt drive systems were developed for a specific need in the market and are available exclusively through Nice Australia.**

**Belt drive systems combine the features of traditional rack and chain drive systems with lower ongoing maintenance requirements.**

**Inverter upgrades available to suit your application.**

## **Belt drive systems**

- work at 100% efficiency regardless of the condition of the track or gate
- lubrication is not required for the life of the belt
- fitting is quick compared to traditional rack - alignment is far simpler

316 stainless steel cover

adjustable enclosure  
easy access

## ACCESSORIES

## TECHNICAL SPECIFICATIONS

MODEL	450 BELT	630 BELT	230 LVL BELT	450 LVL BELT
Motor Power	550 w	750 w	24V 120 W	24V 120 W
Gate Speed (approx)	450mm/sec variable speed	300-630mm/sec variable speed	230mm/sec variable speed	450mm/sec variable speed
Input Power	240V 10A	240V 10A	240V-24V	240V-24V

## TECHNICALITIES

Maximum gate length for 630l is 10m.

## DIMENSIONS

Numbers in Brackets are for the GDS 430 Belt plate variations

BELT NOT INCLUDED WITH OPERATOR - QUANTITY REQUIRED DEPENDS ON LENGTH OF GATE: PLEASE ORDER BELT SEPARATELY

Note: All automation applications require external photo electric cell protection/induction loop and appropriate warning signs and/or devices.

# Swing Gate Operators

4/6, 4/6LV

Both Low Voltage and 240v swing gate operators have been designed for use in industrial applications such as prisons, electrical switch yards and government buildings where security, reliability and speed are important factors.

Inverter upgrades available to suit your application.

## Swing Gate Operators

- utilise two industrial grade cast iron gear boxes with torque control
- override quick disconnect facility should mains fail
- the smart controls mounted in an IP65 stainless steel enclosure allows for variable ramp up, ramp down
- AC drive - variable open and close speeds
- DC drive - contactor/one speed
- 100% duty cycle
- cast iron gearbox with idler shaft
- control board has the facility for
  - safety photo electric cells
  - induction loops
  - remote control
  - contacts available for other functionality

# Swing Gate Operators

7S/7D

316 stainless steel cover, mounting plate and articulated arms

100% duty cycle 3 phase motor

**Both Low Voltage and 240v swing gate operators have been designed for use in industrial applications such as prisons, electrical switch yards and government buildings where security and reliability and speed are important factors.**

**Inverter upgrades available to suit your application.**

## Swing Gate Operators

- utilise two industrial grade cast iron gear boxes with torque control
- override quick disconnect facility should mains fail
- the smart controls mounted in an IP65 stainless steel enclosure allows for variable ramp up, ramp down
- AC drive - variable open and close speeds
- DC drive - contactor/one speed

## DIMENSIONS

# Drive Bolt

## Entry level drive bolt

**The Drive Bolt ensures secure locking, even in the event of high winds or attempted forced entry.**

### Drive bolt

- 24V DC operation to allow wiring directly to the control panel outputs
- sequencing with the gate through the control panel is automated to allow a four second delay after operation of the drive bolt to allow the gate to open
- can be used to lock the gate in the open or closed positions (optional)
- 25mm stainless steel (option of 40mm shaft)
- 130mm travel
- Unique override system will not allow the pin to jam and overload if the pin doesn't line up with the hole

Plate

Sequencing with the gate through the control panel is automated to allow a four second delay after operation of the drive bolt to allow the gate to open

### DIMENSIONS

# Drive Bolt-Slim

Slim profile drive bolt

**The Slim Drive Bolt is designed for smaller gate frames - up to 50mm wide with a 50/130 travel length. The Drive Bolt ensures secure locking, even in the event of high winds or attempted forced entry.**

## Drive bolt

- 24V DC operation to allow wiring directly to the control panel outputs
- sequencing with the gate through the control panel is automated to allow a four second delay after operation of the drive bolt to allow the gate to open
- can be used to lock the gate in the open or closed positions (optional)
- 25mm stainless steel (option of 40mm shaft)
- 50-130mm travel
- Unique override system will not allow the pin to jam and overload if the pin doesn't line up with the hole

Plate

Designed for smaller gate frames - up to 50mm wide with a 50/130mm travel length

# Boom Barriers

Adjustable 4m-6m arm

Boom barriers are designed with easy installation in mind. The boom barrier comes adjusted to customer requirements and boom arm positioning.

## GDS Boom Barrier

- Powerful 80 watt 24V DC geared motor
- Boom arm is 4-6 metres in length and gear box driven
- controls allow for all standard applications such as:
  - photo-electric cells
  - loop detector
  - transmitters
  - keypads and key switches
  - access control systems and ticketing machines
  - battery backup

ACCESSORIES

**FT 210 NICE**  
Optical device, with wireless transmitter to secure on movable leaf, horizontal adjustable through 210° and 30° vertically for an automation according to standards.

**F 210 NICE**  
Synchronised photocells horizontally adjustable through 210° and 30° vertically.

**NIR-50 REFLECTIVE PE**  
12-24VDC  
24-240VAC

**LD ULTRA DIN**  
Ultra DIN Loop Detector 9-30V DC (12-24vdc/24vac)  
Loop Detectors for sensing traffic presence.

**FOB43304**  
4 Channel Pentafob transmitter  
Hardwearing and durable.  
For use with receiver boards.

**MCV2**  
Elsema MCV2 board for low voltage GDS 4/6 operators.

TECHNICAL SPECIFICATIONS

MODEL	BOOM L OR R (ELSEMA) adjustable 4m-6m arm
Power	24v 50Hz, or 24v DC, or Solar
Duty Cycle	Continuous - 100%
Weight	Base 60kg Arm 1.4kg/m
Operational Speed	6 seconds
Operational temperature range	-15° to 60°

CONSTRUCTION

Both the drive system and control circuit are fixed to a rigid steel chasis and enclosed by a robust steel cover. The door may be easily opened for service. The cover has a standard white body with orange powder coat lid.

OPTIONAL

Grade 316 stainless steel cabinets

DIMENSIONS

Stainless steel model measurements shown in brackets

# S/M/L Bar Barrier gate operators for all sizes

**High performing, reliable and durable.  
Elegant, streamlined design.  
Carefully selected materials.  
Greater convenience, safety at all  
times.**

**Integrated solutions for all requirements.**

Barrier gate operators to control road access to car parks, industrial, private and block of flats transit areas, including high traffic ones.

**5 models in 3 standard versions, up to 7 modular bars from 3 to 9 m.**

Easy transport and optimised management in the warehouse.

Nice key release

Tamper-proof function:  
provision for integrated  
assembly of photocells

Paint-finished aluminium  
for bar support and cover,  
with optional flashing light

Steel case with protective  
cataphoresis treatment  
and paint finish, or with  
stainless steel case

# Selection guide, composition of bars and accessories

Bars and accessories are not included in the gear motor's code

\* Use XBA9 joint to assemble bars

\* Use XBA9 joint to assemble bars

# S-Bar

## Electromechanical road barrier system for control of road access

### For bar up to 4 m.

24 Vdc gear motor with built-in control unit.

**Strength and reliability:** tough steel structure, new robust balancing springs guaranteed to 500,000 cycles and elliptical section shaft with high resistance to gusts of wind.

Optional flashing or traffic light can be integrated in cover.

**More comfort and safety in programming and maintenance phases:** the separate enclosures for electronics and mechanics protect internal parts from potential risks.

Rapid and easy access to the control unit located in the upper section of the barrier body.

Simple fixture of the completely concealed photocells onto the specially designed seats on the barrier body.

**More safety and reliability:** obstacle detection and monitoring of motor absorption during automation movement.

Automatic fault diagnostics during operation with consequent signalling of fault type through specific flash sequences.

Provision for connection of latest generation optical and resistive sensitive edges (with 8.2 KOhm resistance).

**Energy saving:** the system sets to standby when not in use to save power.

**No black out:** emergency backup power with the optional batteries housed inside the case.

**Release from side with Nice triangular key:** can be installed on either side.

### DIMENSIONS

## COMMON ACCESSORIES

**IBT4N**  
Interface for connecting the O-View programming unit.

Pc./Pack 1

**IT4WIFI**  
Smart Wi-fi interface to manage gates and garage doors by smartphone ((Not compatible with the Solemyo kit and battery backup.).

**XBA19**  
White paint-finished aluminium bar 45x58x4270 mm.

Pc./Pack 1

**XBA20**  
Spare control unit, for S4BAR.

Pc./Pack 1

**PS124**  
24 V battery with integrated battery charger.

Pc./Pack 1

**XBA13**  
Rubber impact protection strip. Length 1 m.

Pc./Pack 9

**WA10**  
Red adhesive reflector strips.

Pc./Pack 24

**SIA1**  
nchorage base with clamps.

Pc./Pack 1

**XBA7**  
Integrable flashing light.

Pc./Pack 1

**XBA4**  
Indicator lights for click fixture on upper or lower side of bar. Length 4 m.

Pc./Pack 1

**WA11**  
Adjustable stand for bars.

Pc./Pack 1

**SOLEMYO KIT**  
The solar power to automate gates, garage doors or barrier gates.

See page 140.

## IN ORDER TO HAVE A FULLY FUNCTIONAL BARRIER GATE OPERATOR SYSTEM:

1. CHOOSE THE GEAR MOTOR

2. SELECT THE BAR

3. COMPLETE THE SYSTEM WITH THE OPTIONAL ACCESSORIES

## Electromechanical road barrier system for control of road access

### For bars up from 3 to 7 m.

24 Vdc gear motor with built-in control unit.

**Simplified programming:** control unit with display and joystick to make setting operating parameters even faster.

The control unit has an output to power 24 Vdc devices and two inputs to control loop detectors with the LP21 and LP22 accessories.

**Modular:** bars are easily assembled using the aluminium expansion joint.

Possibility for intelligent control of two opposing automations thanks to “**master/slave**” function.

**Strength and reliability:** tough steel structure, new robust balancing springs guaranteed to 2,000,000 cycles and elliptical section shaft with high resistance to gusts of wind.

Optional flashing or traffic light can be integrated in cover.

Encoder movement control and electromechanical limit switches.

**More comfort and safety in programming and maintenance phases:** the separate enclosures for electronics and mechanics protect internal parts from potential risks.

Rapid and easy access to the control unit located in the upper section of the barrier body.

Simple fixture of the completely concealed photocells onto the specially designed seats on the barrier body.

**More safety and reliability:** obstacle detection and monitoring of motor absorption during automation movement.

Automatic fault diagnostics during operation with consequent signalling of fault type through specific flash sequences.

Provision for connection of latest generation optical and resistive sensitive edges (with 8.2 KOhm resistance).

**Energy saving:** the system sets to standby when not in use to save power.

**No black out:** with the optional batteries (PS224) housed inside the gear motor.

**Release from side with metal key:** can be installed on either side.

\* Use XBA9 joint to assemble bars.

## WI-FI Control Module

### BusT4 interface - Wi-Fi

The IT4WiFi accessory is a device that – by means of Wi-Fi communication – allows 2.4Mhz. Nice automation are compatible with the BusT4 (Opera) protocol.

For successful operation, the following is required:

#### Wi-Fi Control Module

- 1x Nice automation control unit equipped with BusT4 port or connector for IBT4N
- 1 x Wi-Fi b/g Access Point that supports the Apple Bonjour service (consult the instruction manual of the Access Point)
- 1x iPhone with iOS 10.0 system (or later versions) or 1 smartphone with Android 5 (or later versions)

The kit includes:

- IT4WiFi device
- IBT4N interface
- RJ-11 telephone cord (6 positions - 4 contacts)

Nice

# Era Inti

## Transmitters

**The colourful line of 1 and 2 channel miniaturised transmitters, available in six colours.**

433.92 MHz rolling code, with management of Identity Codes and Certificates, self-learning and built-in proximity receiver; with 72 bit O-Code encoding, also compatible with receivers with Nice FloR encoding.

**Advanced:** uses data processing and recognition systems that increase its degree of security and deliver a threefold reduction in automation response times.

**Safe:** if a transmitter is stolen or lost, it can be replaced through the O-Box, maintaining the same functions as before, and the old transmitter can be disabled by increasing the priority level on the new Inti.

**Easy memorisation, even at a distance:** thanks to Opera receivers.

**There are two options for enabling a new Inti transmitter, even at a distance from the system:**

- using a transmitter already programmed in the receiver, thanks to the enabling **Code exchange** between the two;
- using the Nice O-Box connection interface; the receiver's **Certificate** is entered by just placing the new Inti next to the O-Box and following the guided procedure on a PC or PDA.

**Inti can be used as keyring thanks to the lace included in the pack.**

### TRANSMITTER TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack

INTIKIT	The kit contains: 3 two-channel Inti units (colours red, green and blue) 1 OX2 receiver.	10

	Carrier frequency	Estimated range	Encoding	Power supply	Battery life	Ingress protection class	Dimensions Weight
INTI_Y, INTI_R, INTI_L, INTI_G, INTI_B, INTI	433.92 MHz	150 m (outdoors); 30 m (if inside buildings)*	O-Code 72 bit; rolling code	3 Vdc; lithium battery type CR2032	2 years (with 10 transmissions per day)	IP40 (use in protected environments)	30x56x9 h mm 14 g

\* Transmitter range and receiver reception capacity may be affected by any devices operating on the same frequency in the area.

Code exchange between a memorized transmitter and a new one, to be memorized.

Possible memorisation using Nice O-Box and the "Certificate".

The presence of a "transmitter" in the OXIT, OX2T and OX4T receivers allows radio codes to be accessed by means of the O-Box multifunction interface.

OXIT, OX2T and OX4T receivers can be used as signal repeaters.

# Nice presents the line of BiDirectional receivers and transmitters with LoRa® long range radio technology

With the Era One LR transmitter and OXI LR receiver, you can now receive **feedback on reception** of the command and the **status of gate and garage door automations**.

Particularly suitable for long distances or places with a high level of radio disturbance.

The technology offers numerous advantages: long range radio, up to 1 Km\* in an open space.

Particularly suitable for places with a high level of radio disturbance

## Additional information thanks to the NFC technology

Near Field Communication enables you to access additional information by simply placing your smartphone near the new Era One LR bidirectional transmitter.

# Era One & OXI LR

Bidirectional transmitters and receivers with LoRa® long range technology

**Four key transmitter: 3 radio channels and 1 key to request automation status.**

433.92 MHz radio frequency with rolling code encoding, identity code management and self-learning.

**Long range commands:** LoRa® technology sends commands over a distance in an open space about 10 times greater than previous radio protocols. Automation control has never been so efficient!

**Even at a distance from the system,** you can enable a new transmitter by using another Era One LR transmitter already enabled in the receiver, thanks to exchange of the **identity code** between them.

**Elegant and practical:** the Era One LR transmitter can be used as a refined high-tech keyring, or fixed to the wall or the car dashboard, thanks to the practical mount included in the pack.

**Bidirectional Era One LR, ideal for using in cities or wherever there are numerous other devices present.**

The bidirectional radio protocol uses LoRa® modulation to improve immunity from interference.

**Bidirectional plug-in receiver with LoRa® technology.**

The OXILR is compatible with all Nice control units with SM connector and so can also make existing Nice automations long range bidirectional.

**Ergonomic design:** antenna connectors, key and programming LED in convenient practical positions.

**Maximum flexibility:** can memorise up to 1,024 bidirectional transmitters with LoRa® technology.

## TECHNICAL SPECIFICATIONS

Code	Description	Pcs./pack
<b>ON3ELR</b>	3 channels, 433.92 MHz, bidirectional, with LoRa® technology	10
<b>ONELRKIT</b>	KIT with LoRa® technology Composed by: 2 pcs ON3ELR, 1 pcs OXILR, 1 pcs OX2UBP	

	Carrier frequency	Estimated range	Encoding	Power supply	Battery lifetime	Protection class	Dimensions Weight
<b>ON3ELR</b>	433.92 MHz	1 Km; 100 m (if inside a building)*	LR	3 VDC; CR2032 lithium battery	2 years (with 10 transmissions per day)	IP40 (use in protected environments)	45x56x11 h mm 18 g

\* Transmitter range and receiver reception capacity may be affected by any other devices operating on the same frequency in the area and by the position of the system's radio antenna.

## RECEIVER TECHNICAL SPECIFICATIONS

Code	Description	Pcs./pack
<b>OXILR</b>	Bidirectional plug-in receiver, 433.92 MHz, bidirectional, with LoRa® technology	1

	Reception frequency	Transmission frequency	Input impedance	Sensitivity	Encoding	Number of channels	Power supply	Current draw	Protection class	Dimensions Weight
<b>OXILR</b>	433.92 MHz	433.92 MHz	50 Ohm	-118 dBm	LR	4 (on "SM" plug-in connector)	5 Vdc	50 mA (max)	IP 30	49.5x18x41.9 h mm 22 g

# Nice extends its range of control systems with bidirectional versions:

With the Era One BD transmitter and OXI BD receiver, you can now receive **feedback on reception** of the command and the **status of the gate and garage door automations**.

When the user sends a command to the automation, the transmitter indicates correct reception, the presence of possible faults or the need to change the device battery. When the "i" key is pressed, the transmitter also provides information on automation status (open, closed, in movement) by light, sound or vibration signals.

## Nice mesh network

The Nice bidirectional radio protocol with mesh technology has numerous advantages:

- extension of the radio range to 500m (max. 10 Hops)
- confirmation by the automation of correct command reception;
- the possibility of checking automation status at any moment;
- high security, thanks to the encrypted communication;
- low energy consumption in standby.

## Additional information thanks to the NFC technology

The Near Field Communication enables you to access additional information by simply placing your smartphone near the Era One Bidirectional transmitter.

You can check the charge of the battery and discover the functions of the bidirectional system with a simple gesture.

# Era One BD & OXI BD

## Bidirectional transmitters and receivers

Command reception  
feedback

- gate/door open
- gate/door closed
- partial opening/closing

NFC to display additional  
information on the remote control

Automation status  
querying

**Four key transmitter: 3 radio channels and 1 key to request automation status.**

433.92 MHz radio frequency with rolling code encoding, identity code management and self-learning with 192 bit encoding, also compatible with receivers with Nice O-Code FloR encoding. Operating in unidirectional mode, the bidirectional Era One remote control is also compatible with previous versions of Nice plug-in and external receivers.

**Instantaneous command:** the new bidirectional radio protocol is about 30 times faster than the previous radio protocols. Automation control has never been faster!

**Even at a distance from the system,** you can enable a new transmitter by using another transmitter already enabled in the receiver, thanks to exchange of the **identity code** between them.

**Elegant and practical:** the Era One transmitter can be used as a refined high-tech keyring, or fixed to the wall or the car dashboard, thanks to the practical mount included in the pack.

**Bidirectional Era One, ideal for using in cities or wherever there are numerous other devices present.**

The bidirectional radio protocol uses GFSK modulation to improve immunity from interference.

**Plug-in, bidirectional receiver with the functions of the Opera system.**

The OXIBD is compatible with all Nice control units with SM connector and so can also make existing Nice automations bidirectional.

**Ergonomic design:** antenna connectors, key and programming LED in convenient practical positions.

**Maximum flexibility:** can memorise up to 750 bidirectional transmitters or 1024 unidirectional transmitters.. OXIBD receivers can be used as signal repeaters to increase the operating distance between the transmitters and other Nice bidirectional receivers.

### TRANSMITTER TECHNICAL SPECIFICATIONS

Code	Description	Pcs./pack					
ON3EBD	3 channels, bidirectional, 433.92 MHz	10					
	Carrier frequency	Estimated range	Encoding	Power supply	Battery lifetime	Protection class	Dimensions Weight
ON3EBD	433,92 MHz	500 m (max. Mesh network); 35m (if inside a building)*	BD; 192 bit O-Code	3 Vdc; CR2032 lithium battery	2 years (with 10 transmissions per day)	IP40 (use in protected environments)	45x56x11 h mm 18 g

\* Transmitter range and receiver reception capacity may be affected by any other devices operating on the same frequency in the area and by the position of the system's radio antenna.

1. Exchange of identity code between a previously memorised transmitter and a new transmitter to be memorised.
2. The NFC technology and a dedicated webpage enable further information to be provided on the transmitter and on battery status.

Antenna connector

Programming key

OXIBD	Plug-in, bidirectional, 433.92 MHz radio receiver								1	
	Reception frequency	Transmission frequency	Input impedance	Sensitivity	Encoding	Number of channels	Power supply	Current draw	Protection class	Dimensions Weight
OXIBD	433,92 MHz	433.92 MHz (solo BD)	50 Ohm	-108 dBm	BD, O-Code, FloR, TTS, Flo, Smilo	4 (on "SM" plug-in connector)	5 Vdc	50 mA (max)	IP 30	49,5x18x41,9 h mm 22 g

# Nice Era photocells, selectors & proximity reader

The Nice generation of optical devices for automation **safety**, available with Nice BlueBUS technology for a simplified installation

**Three different sizes of photocells synchronised to meet any need and complete the safety and comfort of every automation system**, also in the tightest spaces, perfect for use with renovations to cover annoying existing set-ups.

## > SLIM

With only 30 mm width, also in burglar-proof version, ideal for tight spaces.

## > MEDIUM

In anti-intrusion, reflective, wireless and positionable versions, ideal for the most common systems.

## > LARGE

Positionable, also in versions for recessed mounting with 9 mm projection, ideal for concealed installations.

#### > ERA KEYPAD

Extremely strong metal body, 27 millimetres depth and only 13 mm from the wall for the recessed mounting version.

**DIGITAL SELECTOR  
WIRELESS (EDSWG)**

Digital selector in burglar-resistant version 13 keys.

**DIGITAL SELECTORS  
(EDS)**

Digital selector in burglar-resistant version for outdoor and recessed installation.

#### > ERA KEY

Wafer thin, only 13 millimetres depth from the wall in the recessed versions.

**KEY SELECTORS  
WITH EUROPEAN  
CYLINDER (EKSU)**

Key selectors in version for outdoor or recessed mounting.

**KEY SELECTORS  
WITH STANDARD  
CYLINDER (EKS)**

Key selectors in version for outdoor or recessed mounting.

#### > ERA TRANSPONDER READER

Transponder proximity reader for cards and badges with customized programming.

**PROXIMITY READERS  
(ETP)**

Proximity readers for card and badge reading.

**TRANSPONDER  
BADGE**

Convenient transponder badge with a practical through hole to add on to a key chain.

# Era Photocell M

Medium Synchronized photocells, fixed or positionable, also with Nice BlueBUS technology

**Available in anti-intrusion, reflective and wireless versions.**

**Safe:** D type device according to specification EN12453 which picks up obstacles on the optical axis between transmitter (TX) and receiver (RX).

Using the fototest function it is possible to achieve class 2 safety fault according to specification EN 954-1.

Antiglare circuit eliminates possible sunlight interference.

**Fast easy installation:** the wireless technology (EPMOW) eliminates the need to wire the photocells to the control unit and provide routing and cable ducts. The devices interface with the control unit through an ultra-compact dedicated module (IBW) which can be housed directly in the motor or the control unit if separate. Up to 7 devices with Nice BlueBUS technology can be connected to the same IBW interface.

Thanks to the reflective technology (EPMOR), just the main photocell needs to be wired and not the reflective mirror, saving time.

**Built in LED light in the EPMOR version:** the optional ELMM LED light module can be installed in the EPMOR photocell to light the transit area, act as a flashing light or provide diagnostic information.

**Universal system:** EPMOR has a relay output for connection to any new or existing automation system.

**Simplified maintenance:** EPMOW photocells have a diagnostic LED which indicates possible anomalies and battery status, facilitating installation and maintenance.

**Practical:** 10° angle of reception. The positionable versions allow for the compensation of centering gaps up to 30°.

**Resistant and vandal-proof:** ABS body resistant to weather conditions, available also in burglar-resistant version with metal shell.

**Nice BlueBUS technology:** available with the BlueBUS system, which allows an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and selecting the jumpers for addressing according to the needed function. The system automatically acquires the devices connected to the BlueBus network.

Automatic synchronisation between multiple photocell pairs in order to avoid other possible interferences between the devices.

# Era Photocell L

Large synchronised photocells, fixed or positionable, also with Nice BlueBUS technology, both surface mounted and recessed

**Easy and versatile:** recessed versions EPLIO compatible with the most popular standards on the market to replace the old photocells or cover annoying existing setups without the need of extra adaptors.

**Safe:** D type device according to specification EN12453 which picks up obstacles on the optical axis between transmitter (TX) and receiver (RX).

Using the fototest function it is possible to achieve class 2 safety fault according to specification EN 954-1.

The models EPL, EPLO, EPLIO provide for 2 range levels.

Antiglare circuit which eliminates possible sunlight interference.

The positionable versions allow for the compensation of centring gaps up to 30°.

**Discreet:** polycarbonate body, extremely strong with minimal projection of 9 millimetres from the wall for the recessed mounting version.

**Practical:** adapter bowl EKA03 to simplify preparations for recessed mounting.

**Nice BlueBUS technology:** all versions with the BlueBUS system allow an easy connection to the control unit of all devices with only two wires. Simply connect them in parallel and select the jumpers for addressing according to the needed function.

The system automatically acquires the devices connect to the BlueBUS network and allows automatic synchronisation with multiple photocells in order to avoid other possible interferences.

**IB interface:** allows the connection of photocells with Nice BlueBUS technology to control units having terminals for traditional contacts.

POE

# Era Keypad

12 key digital selector, also with Nice BlueBUS technology, available in the recessed mounting version

EDS  
EDSB

EDSI  
EDSIB

**Wafer-thin:** extremely strong metal body, 27mm depth and only 13 mm from the wall for the recessed mounting version.

**Safe:** the combination is a 1 to 9 digit number which allows for the creation of up to 999.999.999 possible combinations!

Backlit keypad.

#### Easy programming:

- 2 programming modes: Easy or Professional;
- possibility to program the number of uses of a specific combination;
- 255 storable combinations expandable, on EDS and EDSI up to 510 combinations with a second additional memory BM1000.

With a O-Box interface you can manage easily any kind of programming of the BM1000 memory, in proximity of the system or also at a distance, directly from the office of the installer.

O-Box is interfaced with the PC, thus allowing an orderly storing of all installations.

**Nice BlueBUS technology:** compatible with BlueBUS system which allows an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and other exclusive functions:

- 2 keys for the activation of two different commands chosen among 6 available ones (for example, step operation, close, open), depending on the control unit to which they are connected to;
- up to 4 control devices EDSB/EDSIB and ETPB which can be connected also with a mixed configuration;
- possibility of insertion of a block/unblock function.

**Two different visual signalling** depending on the state of automation:

- red: when the automation is closed or is closing;
- green: during opening operation or in the case in which the "automation block" function is active.

## DIGITAL SELECTORS

Code	Description	Pack/Pallet
<b>EKA03</b>	Bowl for recessed mounting (depth 66 mm) for installation of EKSI, EKSI EU. also compatible with EPLIO, EPLIOB, EDSI, EDSIB	50
<b>EKA02</b>	Finishing kit for EDSI, EDSIB, EKSI, EKSI EU installation	10

# Era Keypad wireless

13 key digital selectors, with radio connection,  
100% wireless

**Digital radio selector with FloR 52 bit coding:** is compatible with FloR with rolling code and generates 4.5 trillions of combinations, self-learning.

**Complete:** 3 transmission channels to control 3 automated systems or 3 different customised commands for the single automated system.

**Convenient:** no cabling needed and an estimated range of 25 m in free space and 15 m inside buildings. Backlit keypad in poor light conditions. Acoustic feedback.

**Safe:** the combination is a 0 to 9 digit number which allows for the creation of up to 999.999.999 possible combinations!

**Economic:** extremely reduced consumption, transmission is activated at the pressure of a key and turns off automatically.

The ambient light sensor activates lighting of the keyboard only when this is necessary.

**Thin:** extremely strong metal body, only 27mm depth.

## DIGITAL WIRELESS SELECTOR

# Era Transponder reader

Transponder proximity reader for cards and badges, FLOR-M bimodal transmitters, also with Nice BlueBUS technology

## Easy programming:

- 2 programming modes: Easy or Professional;
- allows you to determine which cards/badges are enabled on the system;
- possibility of programming the number of uses available to a specific card or badge;
- 255 storable cards/badges expandable, on ETP, up to 510 cards/badges with a second additional memory BM1000;
- 2 modes (static and dynamic) to activate two different commands (ETP version).

With a O-Box interface you can manage easily any kind of programming of the BM1000 memory, in proximity of the system or also at a distance, directly from the office of the installer.

O-Box is interfaced with the PC, thus allowing an orderly storing of all installations.

**Nice BlueBUS technology:** available with BlueBUS (ETPB) system which allows an easy connection to the control unit of all devices with only two wires, by simply connecting them in parallel and other exclusive functions:

- 2 modes (static and dynamic) for the activation of two different commands chosen among 6 available ones (for example, step operation, close, open), depending on the control unit to which they are connected to;
- possibility of insertion of a block/unblock function;
- up to 4 control devices EDSB/EDSIB and ETPB which can be connected via BlueBUS, also with a mixed configuration.

**Transponder badge HSB1** Practical in use, can be added to the key chain so as to be always available.

## PROXIMITY READER

Code	Description	Pack/Pallet
<b>ETP</b>	Proximity reader for transponder cards MOCARD and MOCARDP to be combined with the MORX decoder	1
<b>MORX</b>	Decoder for 1 ETP or up to 4 EDS/EDSI connected in parallel, with 1 BM1000 memory for 255 combinations	1
<b>BM1000</b>	Additional memory for additional 255 combinations	5

## PROXIMITY READER WITH NICE BLUEBUS TECHNOLOGY

Code	Description	Pack/Pallet

Nice

# Era Light

Flashing LED signal light

**Universal:** The flashing light is available in two versions: 90-240 Vac and 12-36 Vdc.

Thanks to the wide range of power supplies, ELAC is compatible with different electrical standards and can also be installed in areas at risk of voltage surges.

**Practical:** body particularly shock resistant, designed for fixing in various positions.

**Energy saving:** Thanks to the LED technology, ELAC and ELDC consume about 80% less than traditional flashing lights.

**All versions have a built-in 433.92 MHz antenna.**  
Protection class IP44.

TECHNICAL SPECIFICATIONS

# Wallyght

Multi-function LED indicator

**The only version with 12/24 Vac/  
Vdc power supply and flashing light  
function, courtesy light function or  
dusk sensor function.**

**A new idea for improved safety:** when connected to compatible control units, Wallyght can act as a normal flashing light, or provide ambient lighting like a fixed courtesy light.

When connected to a 12/24 Vac/Vdc output, Wallyght can remain permanently lit and also be activated at dusk to then turn off at dawn thanks to the integrated dusk sensor.

**Optimal efficiency, extra long life:** the two 1 W-LEDs guarantee a lifetime of 70.000 hours (continuous use).

**Horizontal, wall or ceiling mounting:** combined with the possibility of orienting the light beam and compact dimensions of the IP44 box, use of Wallyght is even more flexible.

# Solemyo

## Solar power system for automation systems

**Solemyo is the solar power system to automate gates, garage doors and road barriers, even those located far from the electrical mains.**

Solemyo is available both in kit version and single products.

**Installable anywhere:** without the need for connections or excavations, even in the most remote locations or those difficult to access with the power mains.

**Increased savings and respect for the environment:** thanks to solar energy, free and clean: an ecological and intelligent choice with short term benefits.

**Low consumption with no risk of blackouts:** the extended duration of the energy reserve, combined with the low consumption of the automations, guarantee operation also in prolonged overcast conditions.

**Less consumption, more autonomous operation!**

Perfect operation ensured even at night time or in prolonged overcast conditions, guaranteeing comfort and safety.

**Ease of use:** the SYA1 auxiliary power supply unit enables rapid battery charging via a 230 Vac power mains, as an alternative to the photovoltaic module.

Battery charge status Led indicators.

**Installation advice:** if two or more parallel-connected solar panels have to be installed, purchase individually the items that make up the Solemyo system to increase the system's charging capacity or use just one SYA1 transformer to charge several PSY24 battery boxes.

**The kit contains:**

**SYP:** photovoltaic panel for 24 V supply.

**PSY24:** 24 V battery box with control circuit and carry handles. It stores the electrical energy produced by the SYP panel, with continuous and permanent supply throughout the day.

**Cables and connectors** necessary for the connection.

### TECHNICAL SPECIFICATIONS

Code	Description	Pack/Pallet
<b>SYKCE</b>	Solar power kit comprising SYP photovoltaic panel and PSY24 battery box with charging control circuit	21
<b>SYP</b>	Photovoltaic panel for 24 V supply with maximum power 15 W	
<b>SYP30</b>	Photovoltaic panel for 24 V supply with maximum power 30 W	
<b>PSY24</b>	24 V battery box with control circuit and carry handles	

#### The SYP30 photovoltaic panel

Sold individually, is ideal in all the situations with low exposure to the sun or automations with high intensity of use.

Pc./Pack 1

# FT210, FT210B

Pair of optical devices for sensitive edges

PPH2

PPH1

FA1

**Optical device, with wireless transmitter to secure on moveable leaf, horizontally adjustable through 210° and 30° vertically, for an automation according to Standards.**

## Consideration towards personal safety and product quality.

The safety level of the main edge, required by the EN12453 standard, can be achieved for any "type of use" and any "type of activation" by integrating a FT210/FT210B device to an 8.2 KOhm TCB65 type resistive sensitive edge

The FT210/FT210B device, integrated with a "resistive" sensitive edge (8.2 KOhm), is safe against individual faults (category 3 according to the EN 954-1 standard) or can be used with automated systems with self-diagnosis at the start of every manoeuvre (category 2 according to the EN 954-1 standard).

## Additional models

Versions with relay output (FT210), with Nice BlueBUS technology (FT210B), available with 2 Ah (FTA2) and 7 Ah (FTA1) battery Kit, for intensive use.

## Cutting-edge technology

The anti-collision circuit avoids interference with other out-of-sync receivers.

The FT210/FT210B optical devices are equipped with a special sensor capable of recognising when the gate is motionless, which remains in a low consumption mode and activates only when the gate is in motion.

Range adjustable on 2 levels; alignment with proportional LED for easy and safe installation.

## Suitable for any architectural environment and easy to install.

**Compact size:** Reduced dimensions: 46x128x45; electrical connections can also be made from the lower section of the box.

**Resilient and safe** Polycarbonate casing; FA1 vandal-proof metal shell (optional); low transmitter battery indicator.

## TECHNICAL SPECIFICATIONS

1. TCB65, resistive sensitive edges
2. Tx FT210 power supply with battery
3. Rx FT210

# F210, F210B

## Synchronised photocells adjustable

**Synchronised photocells horizontally adjustable through 210° and 30° vertically.**

**Simply perfect installations.**

### The 210° solution

The beam of the Nice F210 and F210B photocells has a horizontal scope of 210°, thereby increasing the safety level of the system and simplifying installation: the gate or garage door to be automated quite often slide flush with the wall making it very difficult to position the photocell.

### Numerous models and countless advantages

The new photocells are available with relay output (F210) or with the Nice BlueBUS technology (F210B).

With the BlueBUS technology, all devices can be easily connected to the control unit with just two wires.

PPH2

PPH1

FA1

Sensors with the BlueBUS technology can be connected to incompatible control units by means of an IB interface.

The system acquires automatically the devices connected to the BlueBUS network.

**Suitable for any architectural environment and easy to install.**

**Compact size:** Reduced dimensions: 46x128x45; electrical connections can also be made from the lower section of the box.

**Resilient and safe** Polycarbonate casing; FA1 vandal-proof metal shell (optional).

**Cutting-edge technology** The problem of interference between the sensors and the automatic synchronisation between several pairs of photocells is solved by the anti-blinding circuit.

High range adjustable on 2 levels; synchronising circuit; alignment with proportional Led for easy and safe installation.

## TECHNICAL SPECIFICATIONS

# Kio

Key-operated selector switch for low voltage contacts

With release mechanism for metal cable, ideal for automating sectional doors, rolling doors and folding doors.

**User-friendly:** Kio is both a key-operated selector switch and a release device. Its design makes it very convenient and effortless to use, and easy to install anywhere thanks to its very narrow outline.

**Long-lasting:** made from cast aluminium, epoxy-power coated.

**Easy:** LED allows you to locate the selector switch even in total darkness.

**More safety:** coded key. Release device activated directly by opening the door or by the winding device.

The very first product to incorporate the key-operated control and release motor functions.

Code	Description	Pack/Pallet
KIO	Key-operated selector switch for low voltage contacts, with release mechanism for metal cord	1
KA1	6 m cable release kit for KIO	1

KIO

KA1

# Kiomini

Aluminium key switch

With control button and release mechanism for metal cable.

**Practical:** Kiomini is both a lever for the release mechanism for metal cord and a control mechanism for the direct or through a control unit activation of a single phase motor.

**Resistant:** a vandal-proof die-cast aluminium casing. The access to the sector is possible by a thick door with closing key.

**Convenient:** thanks to its small dimensions, it is easy and compact to install.

Code	Description	Pack/Pallet
KIOMINI	Aluminium key switch with control and release mechanism	1
KA1	6 m cable release kit for KIO	1

KA1

# O-View

## Multipurpose control unit

OVB T

OVB T GSM

O-VIEW  
SOFTWARE SUITE

Unit for control, programming and diagnostics for devices equipped with BUS T4 connection, on site or remotely via GPRS thanks to the connection with your PDA, Smartphone or PC.

**Advanced management:** O-View connects to the compatible control unit by IBT4N interface and BUS T4 cable (supplied), providing access to all control unit parameters to adapt the system to every need.

By connecting O-View permanently to a control unit or group of control units via BUS T4, a network can be created for local or remote centralised management.

**Programmable:** thanks to the built-in clock, it is also possible (with integrated backup battery) to program delivery of commands at a set time, for example to automate opening and closing of complex industrial and commercial systems or for the creation of "scenarios".

A practical wall-mounted support is supplied.

**Simple programming mode:** with intuitive menus valid for each product, with no need to consult the specific instructions.

O-View powers up and automatically recognises all devices on the network as soon as it is connected, displaying only the specific parameters of the device on which to intervene.

In the case of several devices on the network the BUS T4 address is identifiable by means of a text label personalised as required, enabling rapid recognition of the associated device.

**Safe:** two password-protected levels (for the user and the installer).

**Practical:** O-View is your portable office, and can be connected just when programming or for maintenance, or can be installed permanently on site to exploit all the benefits of local or remote centralised management.

### TECHNICAL SPECIFICATIONS

Code	Description	Pc/Pack
<b>OVIEW</b>	Unit for control, programming and diagnostics of devices equipped with BUS T4 connection	1
<b>OVB T</b>	Bluetooth module for O-View and "O-View Software Suite" application for PC, PDA or Smartphone	1

# TERMS AND CONDITIONS

## NICE AUSTRALIA HOME AUTOMATION PTY LTD ABN 59 122 778 269 (Nice)

These terms and conditions (Terms) apply in any contract of goods or services made between Nice as supplier and you as buyer. We may change these Terms without notice to you before we accept your order. These Terms supersede any inconsistent provisions contained in any purchase order or any document issued by you. No other document purporting to modify these Terms will be binding on Nice unless made in writing and signed by an authorised representative of Nice.

### 1. Definitions

In these Terms (unless the context requires otherwise): Business Day means any day which is not a Saturday, Sunday or public holiday in South Australia; Encumbrance means any security, mortgage, charge, pledge, lien, trust, encumbrance or any other security interest under the Personal Property Securities Act 2009 (Cth) as amended or replaced from time to time; Goods means goods and/or services (as the case may be) supplied or to be supplied by Nice to you pursuant to an order; GST has the meaning given to it in the A New Tax System (Goods and Services Tax) Act 1999 (Cth) as amended or replaced from time to time; Insolvency Event means the happening of any of the following events: (a) a party suspends payment of its debts generally or is or becomes unable to pay its debts within the meaning of the Corporations Act 2001 (Cth) as amended or replaced from time to time; (b) a party enters into, or resolves to enter into, any arrangement, composition or compromise with, or assignment for the benefit of, its creditors or any class of them; (c) a receiver, receiver and manager, liquidator, provisional liquidator, administrator, trustee or similar official is appointed over any of the assets or undertakings of a party, (d) an application or order is made for the winding up or dissolution of a party, or a resolution is passed or any steps are taken to pass a resolution for the winding up or dissolution of a party, except for the purpose of an amalgamation or reconstruction; (e) a party becomes bankrupt; or (f) a party ceases, or threatens to cease, to carry on business; Law includes any requirement of any statute, rule, regulation, proclamation, ordinance, by-law, industry code or standard, whether present or future, and whether local, state, federal or otherwise, and includes without limitation the common law and equity; Loss means: all claims, demands, allegations, suits, actions and proceedings of any nature and howsoever arising (whether under common law, equity, statute or otherwise); and costs (including without limitation legal costs on a full indemnity basis), damages, expenses, charges, interest, liabilities, losses and Taxes; Quote means the written quote issued by Nice setting out the details of the Goods to be supplied by Nice (including without limitation any specifications relating to the Goods) and includes your acceptance; Tax means any tax, levy, charge, impost, duty (including without limitation import duty), fee, deduction, compulsory loan or withholding which is assessed, levied, imposed or collected by any government agency and includes without limitation any interest, fine, penalty, charge, fee or other amount imposed in respect of any of the foregoing.

2. **Quote:** Nice may change or withdraw any quote we give you, prior to our acceptance of your order.

3. **Orders:** Orders must be submitted to Nice in writing and are subject to acceptance by Nice and the availability of the Goods. Nice will satisfy each order to the extent that it is reasonably able to obtain supply of the Goods but not otherwise. You acknowledge that Nice may change or modify the technical characteristics of its products at any time without prior notice or liability. Illustrations, catalogues, colours, drawings, dimensions, statements of weight and measurements etc made available on advertising materials (other than official technical drawings) are only intended to present a general idea of Goods to which they refer and are approximate only and do not form any part of the Quote or these Terms.

4. **Cancellation and returns:** Once we accept your order, you may not cancel an order or delay delivery unless we agree in writing. You may not return Goods unless we agree in writing and your request is made within 10 Business Days of the date of the invoice. Any agreement to a cancellation or return will be subject to Nice being reimbursed and indemnified against all expenses incurred in relation to any part of the order that is cancelled and in the case of a return, a re-stocking charge of at least 20% of the Price of the Goods. You may not return any non-stock or special manufactured Goods.

5. **Price:** The price charged by Nice for the Goods will be the price set out in the Nice price list at the date of the supply of the Goods unless otherwise agreed in writing (Price). The Price is exclusive of GST and other Taxes. You must pay any GST and other applicable Taxes in addition to the Price. You must also pay for any shipping costs and any insurance requested by you. Nice may amend its price lists, invoices and credit notes at any time to correct any error of calculation or clerical or typographical error and may amend the Price if there is any variation in the details, sizes, quantity, delivery instructions or any other item on which a Quote or invoice is based.

6. **Payment of Price:** Unless credit terms have been agreed with you in writing, payment of the Price must be made in full prior to the delivery of the Goods. If Nice has agreed credit terms with you, payment must be made within 30 days of the end of the month in which the invoice for the Goods is issued whether or not the Goods have been delivered in full. Despite any credit terms, if an Insolvency Event happens to you, Nice may demand the payment of any amounts owing by you and you agree to make immediate payment. If you fail to pay all or any part of the Price on its due date for payment Nice may charge you interest on the unpaid amount at the Westpac Indicator Lending Rate that applies from time to time which interest will be calculated daily from the due date of payment until the date of actual payment. Nice is not obliged to make any further delivery of Goods to you whilst you are in default in relation to the payment of any amount owed to Nice.

7. **Delivery:** Delivery times are estimates only and Nice is not liable any delay in delivery of Goods. You are not relieved of any obligation to accept delivery or pay for Goods because of a delay in delivery. Nice may at its discretion deliver the Goods in instalments. You are deemed to have accepted delivery of the Goods at the expiration of 5 Business Days from delivery. If you request special delivery arrangements or request Nice to arrange and prepay a carrier, risk in the Goods passes to you upon the Goods leaving Nice's premises and Nice will not be liable for any damage, shortage or loss suffered during transit.

8. **Risk and Title:** Risk in the Goods passes from Nice to you upon delivery of the Goods to you or your agent. Goods remain the property of Nice until payment of the Price of the Goods in full. Until payment is made by you in full, you acknowledge that you hold the Goods as bailee for Nice and must store the Goods so that they can be separately identified from other goods. Until payment is made in full, Nice is entitled to retake possession of the Goods and you consent to Nice or its servants or agents entering upon your premises or other premises upon which the Goods are situated to recover them. You agree to indemnify and hold Nice harmless for the cost of collection, enforcement and any legal action in respect of the recovery of the Goods. Nice may sell the Goods and keep the proceeds of sale and any shortfall will be a debt owed by you to Nice. You agree to do all things necessary to enable Nice to register its interest in the Goods under the Personal Property Securities Act 2009 (Cth) until payment is received.

9. **Warranty:** Nice Australia Home Automation Pty Ltd ("Nice") warrants to you that Nice has a legal capacity to enter and perform its obligations under these Terms and Nice will pass good title of the Goods to you free of all encumbrances. Nice further warrants that Goods manufactured by it will be free from defect in manufacture for a period listed below from the date of invoice. Where the Goods are not manufactured by Nice, you will have only the benefit of the manufacturer's warranty from the date of invoice. If you claim that Goods are faulty you must obtain a repair authority and return the Goods to Nice, or its authorised representative, at your expense for inspection or testing. If Nice determines that there is a fault with the Goods caused by faulty workmanship or materials within the warranty period, Nice will make all necessary repairs, or at its discretion replace the product at no charge to you except for freight. Goods returned under warranty for repair or testing will incur a charge to be repaired by Nice if no warrantable fault is found. A warranty is negated and will not apply if you cannot produce proof of date of purchase, the Goods have NOT been used and maintained in accordance with instructions provided by Nice or the Manufacturer, the Goods are altered, tampered with or repaired by personnel not authorised by Nice, or if the fault has occurred due to an act of God, direct or indirect lightning strikes, electrical surges or spikes, fire, sabotage, unforeseen environmental conditions, vandalism or negligence. You are not entitled to delay or withhold any payment due on the grounds of any warranty claim. Nice Gate & Door - 36mths, Nice & Elero tubular motors (Screen) - 5years, Elero Linear - 2 years, Nice Industrial Gate (GDS) - 12mths, all electronics and controls - 12mths, Nice Industrial (Door) 2years or 500hrs. Spare parts and after sales components - All electronics and controls - 12months (batteries not included) All spare part replacement components – 12 months.

10. **Limitation of liability:** To the fullest extent permitted by Law, Nice excludes all other terms, conditions or warranties with respect to the Goods implied by custom, the general law or statute to the extent permitted by the Law. The liability of Nice under these Terms is limited to the replacement or repair of Goods or the supply of equivalent Goods. To the fullest extent permitted by Law, Nice is not in any way liable to you or any third party for death or injury to any person or any indirect or consequential Loss including loss of profits or any other damage arising directly or indirectly from the supply or failure to supply the Goods or any negligent act or omission or breach of these Terms by Nice or its agents.

11. **Your Representations and warranties:** You represent and warrant to Nice that you have legal capacity to enter into and perform your obligations under these Terms, no Insolvency Event has occurred in relation to you and you are not aware of any circumstance which might result in an Insolvency Event occurring. You will indemnify and keep indemnified Nice and its officers, employees, contractors and agents from and against any Loss they may suffer as a result of any breach of a warranty by you or your representatives, any act or omission arising directly or indirectly from any breach of these Terms or any negligent or unlawful act or omission in connection with the Goods.

12. **Intellectual Property:** You acknowledge that Nice products are protected by patents and design registrations which, together with all associated know-how, are the exclusive property of Nice. You will not violate the intellectual property rights of Nice by removing, covering or in any way covering or interfering with any trade marks, distinctive marks or labels and the like attached to any Goods or apply new trade marks, distinctive marks or labels. You may not copy or reproduce any Nice trademarks, logos, emblems, symbols or the like without our written consent.

13. **General:** These Terms are governed by the laws of South Australia and the parties submit to the non exclusive jurisdiction of the courts of South Australia. Nice may vary these Terms at any time by notice in writing to you. If any provision of these Terms is invalid and not enforceable in accordance with its terms such provision is deemed to be deleted and all other provisions which are self-sustaining and capable of separate enforcement without regard to the invalid provisions will be, and continue to be, valid and enforceable in accordance with their terms. You may not assign your rights under these Terms unless with the prior written approval of Nice. Each party must at its own expense do everything reasonably necessary to give effect to these Terms and the transaction contemplated by these Terms. These Terms constitutes the entire agreement of the parties and supersedes all prior discussion and undertakings and agreements.

14. **Notices:** Any notice required to be served by one party on the other party pursuant to these Terms must be in writing and must be served by being: (a) left at the address for service of the party to be served; (b) sent by prepaid ordinary mail to the address for service of the party to be served; (c) sent by facsimile to the facsimile number for service of the party to be served; (d) sent by email to the email address of the party to be served. Service will be deemed to have been effected: (a) if delivered, at the time of delivery; (b) in the case of service by post 5 Business Days after posting; (c) in the case of service by facsimile, when the party serving the notice has a completed transmission report indicating successful transmission of all pages to the correct facsimile number, and the party to be served has not advised incomplete or illegible transmission within 2 hours of transmission; (d) in the case of service by email, when the computer of the party serving the notice indicates that the message has been received and that it has not bounced.

## Residential, commercial and industrial systems for the automation and control of gates and barriers

Nice residential systems providing integrated management using smart and intuitive interfaces: practical, functional and elegant solutions to help you enjoy your living spaces to the full.

Nice Australia produce industrial quality GDS products designed and manufactured in Australia, for Australian conditions. Gate drive systems are 100% duty cycle with intelligent inverters that allow the installer a vast amount of options.

The products are underpinned by exceptional service and support direct from the Australian manufacturer.

**Nice Australia**  
8 Bennet Ave  
Melrose Park SA 5039

[niceforyou.com/au](http://niceforyou.com/au)

Nice cares for the environment.  
Using natural paper it avoids  
excessive use of raw materials  
and forest exploitation.  
Waste is reduced, energy is saved  
and climate quality is improved.
